Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 08-09-2017
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: BROMAR ENGINEERING On site for a routine hazardous waste inspection. Teresa Parker consented to this inspection. Facility generates the following hazardous wastes: waste cutting/cooling fluids. Hazardous waste generation is episodic. There was no hazardous waste stored on site at the time of this inspection. Waste cutting/cooling fluids are generated when there is a change out of fluids from the machine reservoirs. BROMAR ENGINEERING Wastes are pulled directly by the hazardous waste hauler from the machine reservoirs and is not stored on site. Facility is using active EPA ID# CAL000415881. Inspected perimeter of the facility and found no evidence of hazardous waste run-off.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date:	06-27-2017
Citation:	22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)
Violation Description:	Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.
Violation Notes:	Returned to compliance on 07/24/2017. accumulation over 6 months

Eval Notes:	Inspector Comments: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit the following HMD/BEP forms within the next 30 days: - Business Activities form - Owner/Operator Identification form - Hazardous Material Chemical Inventory forms - Facility Site Map - Business [Truncated]

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Hazardous Waste Summary:

Waste Code:	F037
Waste Description:	PETROLEUM REFINERY PRIMARY OIL/WATER/SOLIDS SEPARATION SLUDGE - ANY SLUDGE GENERATED FROM THE GRAVITATIONAL SEPARATION OF OIL/WATER/SOLIDS DURING THE STORAGE OR TREATMENT OF PROCESS WASTEWATERS AND OILY COOLING WASTEWATERS FROM PETROLEUM REFINERIES. SUCH SLUDGES INCLUDE, BUT ARE NOT LIMITED TO, THOSE GENERATED IN OIL/WATER/SOLIDS SEPARATORS; TANKS AND IMPOUNDMENTS; DITCHES AND OTHER CONVEYANCES; SUMPS; AND STORM WATER UNITS RECEIVING DRY WEATHER FLOW. SLUDGES GENERATED IN STORM WATER UNITS THAT DO NOT RECEIVE DRY WEATHER FLOW, SLUDGES GENERATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS AS DEFINED IN SECTION 261.31(B)(2) (INCLUDING SLUDGES GENERATED IN ONE OR MORE ADDITIONAL UNITS AFTER WASTEWATERS HAVE BEEN TREATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS), AND K051 WASTES ARE EXEMPTED FROM THIS LISTING.

CERS:
Name: APCT ORANGE COUNTY
Address: 1900 PETRA LN STE C
City,State,Zip: PLACENTIA, CA 92870
Site ID: 389425
CERS ID: 10518706
CERS Description: Chemical Storage Facilities

Violations:
Site ID: 389425
Site Name: APCT Orange County
Violation Date: 11-08-2017
Citation: 22 CCR 15 66265.31 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.31
Violation Description: Failure to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.
Violation Notes: At the area near the copper sulfate solution drum, blue crystals were observed on the wall near the pump and on the surrounding floor. Immediately remove all hazardous waste from the walls and flooring in this area. In addition, staining and mild etching were observed outside of the roll-up door near the wastewater treatment and hazardous waste storage area. Remove all hazardous waste from this area. Ensure that all hazardous wastes are properly disposed and that business operates to prevent releases from reaching the environment.
Violation Division: Orange County Environmental Health
Violation Program: HWLQG
Violation Source: CERS,

Site ID: 389425
Site Name: APCT Orange County
Violation Date: 11-13-2017
Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5, Section(s) Multiple
Violation Description: Tiered Permitting - Administration/Documentation - General
Violation Notes: Closure plan does not contain closure steps for all units at the location. The unit processing the concentrated and floor wastes as well as the cyanide destruct unit are not covered under the plan. Revise your plan to include these units. A revised closure cost estimate will also need to be prepared and submitted to CERS.
Violation Division: Orange County Environmental Health
Violation Program: PBR
Violation Source: CERS,

Site ID: 389425
Site Name: APCT Orange County
Violation Date: 04-04-2017
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)
Violation Description: Failure to properly label hazardous waste accumulation containers with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.
Violation Notes: Returned to compliance on 04/04/2017. Containers of hazardous wastes in the hazardous waste storage area were not properly labeled. The

APCTOC (Continued) **S110493714**

following was observed: -resist stripper drum was missing the facility information; information was added to the label at the inspection -one drum of spent electroless copper at the plating area did not have a label; label with the required information was placed onto the drum at the inspection -filter cake bin did not have an accumulation start date; accumulation start date was added to the label at the inspection This violation is abated and no further action is required for correction. Ensure that all containers of hazardous waste are labeled with all of the following information: generator s information, accumulation start date, contents, physical state and hazardous properties.

Violation Division: Orange County Environmental Health
Violation Program: HWLQG
Violation Source: CERS,

Site ID: 389425
Site Name: APCT Orange County
Violation Date: 05-20-2021
Citation: 22 CCR 15 66265.173 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.173
Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.
Violation Notes: Returned to compliance on 06/04/2021. One drum of waste silver fix was observed with a top that was partially removed. All hazardous waste must be stored in containers that are closed except when adding or removing wastes. Provide a container for this waste that can be closed and send a photo of the new container within 30 days
Violation Division: Orange County Environmental Health
Violation Program: HWLQG
Violation Source: CERS,

Site ID: 389425
Site Name: APCT Orange County
Violation Date: 07-09-2015
Citation: 22 CCR 45 67450.13(b) - California Code of Regulations, Title 22, Chapter 45, Section(s) 67450.13(b)
Violation Description: Failure to prepare a written estimate of the cost of closing each unit which includes the cost that would be incurred for closing a treatment unit when using the owner or operator or generator's own staff and/or personal equipment taking into account any salvage value that may be realized from the sale of wastes, facility structure or equipment, land or other facility assets. This estimate shall be submitted as an attachment to the Certification of Financial Assurance for Permit by Rule and Conditionally Authorized Operations/ Maintenance page(s) of the Unified Program Consolidated Form (x/99)).
Violation Notes: Returned to compliance on 09/10/2015. In the inspection report dated 2/17/15, this agency requested submittal of revised/corrected closure cost breakdown. Also, in an email on 2/24/15, this agency requested that cost for PE Certification be included. To date, this agency has not received revised/corrected closure cost breakdown. Revised/corrected cost closure breakdown that includes cost for PE Certification must be submitted to this agency by 7/23/15.

Violation Program: HWLQG
Violation Source: CERS,

Site ID: 389425
Site Name: APCT Orange County
Violation Date: 03-13-2014
Citation: 22 CCR 15 66265.52 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.52
Violation Description: Failure to include all of the following in the Contingency Plan: 1) A description of actions the facility personnel shall take response to fires, explosions, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water at the facility; 2) A description of arrangements agreed to by local police departments, fire departments, hospitals, contractors, and State and local emergency response teams to coordinate emergency services; 3) All names, addresses, and phone numbers (office and home) of all persons qualified to act as emergency coordinator and this list shall be kept up to date. Where more than one person is listed, one shall be named as primary emergency coordinator and others shall be listed in the order in which they will assume responsibility as alternates; 4) A list of all emergency equipment at the facility (such as fire extinguishing systems, spill control equipment, communications and alarm systems (internal and external), and decontamination equipment), where this equipment is required. This list shall be kept up to date. In addition, the plan shall include the location and a physical description of each item on the list, and a brief outline of its capabilities; 5) An evacuation plan for facility personnel where there is a possibility that evacuation could be necessary. This plan is to describe signal(s) to be used to begin evacuation, evacuation routes, and alternate evacuation routes (in cases where the primary routes could be blocked by releases of hazardous waste or fires); 6) The current telephone number of the California Emergency Management Agency; and 7) If the owner or operator has already prepared a Spill Prevention, Control, and Countermeasures (SPCC) or some other emergency or contingency plan, the owner or operator need only amend that plan to incorporate hazardous waste management provisions that are sufficient to comply with the requirements of this chapter.
Violation Notes: The location of all regulated TP treatment units could not be located on a facility plot plan/map during thie inspection.

Violation Date: 06-28-2016
Citation: 22 CCR 45 67450.13(b) - California Code of Regulations, Title 22, Chapter 45, Section(s) 67450.13(b)
Violation Description: Failure to prepare a written estimate of the cost of closing each unit which includes the cost that would be incurred for closing a treatment unit when using the owner or operator or generator's own staff and/or personal equipment taking into account any salvage value that may be realized from the sale of wastes, facility structure or equipment, land or other facility assets. This estimate shall be submitted as an attachment to the Certification of Financial Assurance for Permit by Rule and Conditionally Authorized Operations/ Maintenance page(s) of the Unified Program Consolidated Form (x/99)).
Violation Notes: Returned to compliance on 07/27/2016. On 3/25/16, after review of financial assurance documents submitted to CERS on 3/17/16, this agency requested that closure cost be certified by completing "Owner or Operator Certification" section. To date, closure costs have not been certified. Closure costs must be submitted (electronically) by 7/11/16.
Violation Division: Orange County Environmental Health
Violation Program: PBR
Violation Source: CERS,

Site ID: 389425
Site Name: APCT Orange County
Violation Date: 04-04-2017
Citation: 22 CCR 15 66265.191(e) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.191(e)
Violation Description: Failure of the generator conducting CE, CA, or PBR treatment activity to annually obtain and maintain a current P.E. assessment of the existing Hazardous Waste tank systems which lacks secondary containment meeting the requirements of section 66265.193. The P.E. assessment shall determine that the tank system is adequately designed and has sufficient structural strength and compatibility with the waste(s) to be transferred, stored or treated to ensure that it will not collapse, rupture, or fail. At a minimum, this assessment shall include all elements of the tank integrity assessment.
Violation Notes: Returned to compliance on 11/08/2017. Facility's PE certification dated 2/13/13 does not contain three of the five units (gold-CN, rinse water w/metals and rinse water w/o metals). When asked about the start date for these units, Mr. Perkins indicated that the rinse water treatment system was started in 1994 and that he was aware that they were missing from the Certification. A new PE certification will need

APCTOC (Continued) **S110493714**

to be obtained which covers all of the treatment units. Obtain certification from a qualified engineer which includes all of the units on site within 60 days.

notification of an ownership change at this location. The new DBA is APCT Orange County and the new owner is APCT Inc. Consent to enter, inspect, and take photographs was given by Juan Martinez, Environmental/Safety Manager. James Hendron (OCHCA) was also present. Facility conducts circuit board manufacturing. Facility appears to be a RCRA Large Quantity Generator (RCRA LQG) at this time. Facility generated the following hazardous wastes on site: spent copper tetraamine dichloride, filter cake (copper), production trash (copper) and gold plating wastes. Facility treats plating wastes generated from the copper plating line, electroless plating line and the tin strip line on site. Previous business also treated plating wastes generated from the gold plating line, however this business is choosing to send these wastes out for gold recovery and hazardous waste treatment. Gold recovery is by ADS [Truncated]

Eval Notes: Onsite with Lance Perkins, Compliance Manager, to follow-up with the 3/13/14 haz waste inspection. Lance described waste generating processes: - "CE-1" was the name given to an original ion exchange treatment unit that was to allow onsite re-use (recycling) of treated process waste. - the recycling aspect of the original CE-1 unit was discontinued for business reasons. - new treatment equipment was obtained and the treatment processes/goals changed. - now two pH adjust, flocculation, settling tanks alternately share a common filter press to treat metal rich process wastes. - the tanks and filter press have been designated as separate units "CE-1", "CE-2", and "CE-3". - Lance is now considering combining CE-1, CE-2, and CE-3 into one "batch treatment" unit. - the original ion exchange system is still

APCTOC (Continued) **S110493714**

being used by Cartel Electronics to treat lesser metal-rich process wastes. - "non-metal-bearing" liquid wastes (screen printing, image development, etc.) [Truncated]

Plan was reviewed and found to be deficient. Plan does not address all requirements under T22 section 66265.13. Plan must specify the

APCTOC (Continued) **S110493714**

following: - Parameters for which each hazardous waste will be analyzed and the rationale for the selection of these parameters. - Test methods which will be used to test for these parameters - Sampling and sampling management methods which will be used to obtain a representative sample of the waste to be analyzed - Frequency with which the initial analysis of the waste will be reviewed or repeated to ensure that the analysis is accurate and up to date. Waste analysis records should be submitted with the plan, indicating the results of your testing methods. Plan that was submitted does not address all waste streams at the point of generation. Environmental Interest/Information System:
AIR EMISSIONS CLASSIFICATION UNKNOWN
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Click Here:

Environmental Interest/Information System:

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval Notes:	Inspector Comments: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit the following HMD/BEP forms within the next 30 days: - Business Activities form - Owner/Operator Identification form - Hazardous Material Chemical Inventory forms - Facility Site Map - Business [Truncated]

Eval Notes: On site for a routine hazardous waste inspection. Consent to inspect and take any necessary photos was given by Ron Erickson, President. Walked throughout the facility. Observed hazardous waste storage areas. Containers were closed and properly labeled. Aqueous solvent waste sludge is accumulated under satellite generation status. This waste stream has been accumulated on site over the allowed one year accumulation period (label dated 10/1/2014). Discussed satellite accumulation requirements with Mr. Erickson and requested the waste be pick-up immediately by a registered hauler. Manifests were available and reviewed. Employees are reported to be trained. Emergency plan is posted in break room. The dumpster/enclosure was observed. Violation I045 was cited. The generator must immediately correct this violation and submit the manifest to this Agency within 30 days of this notice.

Eval General Type: Compliance Evaluation Inspection
Eval Date: 07-05-2016
Violations Found: No
Eval Type: Routine done by local agency
Eval Notes: INSPECTOR COMMENTS On site for routine hazardous materials and business emergency plan inspection. Consent to enter and inspect was given by Cyle Winkler, mechanic. Observed the facility and inspected hazardous materials storage. The following materials were observed in amounts that meet or exceed the minimum volumes required for disclosure: -Used Oil, three, 55 gallon drums, totaling 165 gallons -New motor oil, one, 55 gallon drum Business emergency plan is not maintained on site, Mickey was informed that he will have to electronically submit an HMBEP through the CERS portal. Annual employee training is not conducted. The facility is responsible for identifying all hazardous materials, to include hazardous wastes, which are above disclosure thresholds. If there is a change in the type or amount of chemicals that are maintained on site, please submit revised documents (electronically) within 30 days of the change.
Eval Division: Orange County Environmental Health
Eval Program: HMRRP
Eval Source: CERS,

Eval General Type: Other/Unknown
Eval Date: 08-07-2017
Violations Found: Yes
Eval Type: Other, not routine, done by local agency
Eval Notes: A review of your facility s hazardous materials business emergency plan submittal was conducted on 9/1/16 and needed corrections to the submittal were noted. Facility was given 30 days to submit corrections. To date, corrections have not been made and the following corrections are still needed: CONTINGENCY PLAN Add the phone number for the Local CUPA (714-433-6000)//complete the Vulnerable Areas section under section H Earthquake Vulnerability In addition, facility has not complied with the annual 2017 HMBEP reporting requirement to submit electronic data to the California Electronic Reporting System (CERS) (see violation). Please submit completed, corrected information

Eval General Type: Compliance Evaluation Inspection
Eval Date: 05-02-2012
Violations Found: No
Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: Regional Board staff conducted a routine compliance inspection of the above facility on May 2, 2012. Staff reviewed the SWPPP which was last certified in 2009. Training records could not be located. Facility is very clean. The bus washing area is plumbed to a clarifier which supposedly discharges to the sewer. When asked to review their sewer connection permit, Mr. Nance did not have a copy. Staff asked Mr. Nance to email copies of the training records as well as their sewer connection permit by May 23, 2012.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Citation:	HSC 6.67 25270.4.5(a) - California Health and Safety Code, Chapter 6.67, Section(s) 25270.4.5(a)
Violation Description:	Failure to comply with all of the following requirements: 1. Failure

YORBA LINDA WATER DISTRICT (Continued) **S120712941**

to conduct inspections and tests in accordance with written procedures that you or a certifying engineer have developed for the facility. 2. Failure to sign written procedures and/or a record of inspections and/or customary business records by the appropriate supervisor or inspector. 3. Failure to keep written procedures and/or a record of inspections and/or customary business records with the plan. AND 4. Failure to maintain written procedures and/or a record of inspections and/or customary business records for three years.

Violation Notes: Returned to compliance on 02/11/2016. Facility personnel conduct daily monitoring, although plan only states that monthly monitoring for leaking containment need be conducted. Documentation of monitoring was not available. Complete monthly monitoring log and send a copy of two months of monitoring logs to this Agency within 60 days to abate this violation.

YORBA LINDA WATER DISTRICT (Continued) **S120712941**

Eval Notes:	Received a copy of facility's draft SPCC plan from Jeremy Smith requesting a review and comment on their document. Reviewed the plan and provided the following: Table G-4 - update the table to show the most likely spill, how much would you lose, where would it go, and what will you do to contain it. Table G-4 - references Appendix B which was not provided. Overall, the plan should have a bit more detail on how facility will prevent a spill from reaching navigable waters. Email sent to Jeremy Smith with a sample Tier 1 SPCC plan from EPA and requested that he augment his plan with more detail.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Eval Notes:	Inspector Comments: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit the following HMD/BEP forms within the next 30 days: - Business Activities form - Owner/Operator Identification form - Hazardous Material Chemical Inventory forms - Facility Site Map - Business [Truncated]

Eval Type: Industrial Storm Water Compliance Evaluation
Eval Notes: SWPPP was dated 1992 and needs to be revised and updated. In the outside smoking area, housekeeping was very poor with hundreds of cigarette butts, dirt and debris scattered on the ground. Two leaks in the roof drain were observed in this area. Oil and metal residue had leaked over the fenced and bermed hazardous materials storage area, because waste inside the area was overhanging the berm. A moderate amount of oil and grease was observed surrounding waste bins. Spill control mats in the chemical storage area had reached capacity and should be replaced. Mr. Arellano was advised to include three sampling points for the upcoming rainy season; if samples test uniformly low, then next season they may composite samples.

Eval Notes:	On site to conduct an initial APST inspection. Inspection was conducted with Joey Lira. This Agency has verified that the facility is regulated under the Aboveground Storage Tank Act (APSA). The facility has between 1,320 and 9,999 gallons of regulated petroleum products stored as follows: 17 x 55-gallon containers of lubricating fluids containing petroleum and waste oil, 1 x 750 gallon tank of used oil. The APST inspection program and Spill Control and Countermeasure Plan (SPCC) requirements were discussed. Orange County Environmental Health has created a website that contains information regarding the APST program and its requirements. The SPCC Plan requirements and SPCC plan templates for Tier I (store less than 10,000 gallons, with no single tank/container having a volume greater than 5,000 gallons) and Tier II (store less than 10,000 gallons, with at least one single tank/container having a volume equal to or greater than 5,000 gallons) facilities have also [Truncated]

Eval Notes: Facility is in compliance with the 2019 reporting requirement. Facility s HMBEP submittal was declined for the following reasons: CHEMICAL INVENTORY During the inspection conducted at your facility on 12/5/2018, propane (8 cylinders) and waste paint filters and debris (1500 pounds) were observed on site above the minimum reporting thresholds, but have not been added to your inventory. Add these materials to your inventory. It was also noted that the Mag Flux-Zyglo Penetrant ZL-60D and Starbright 485 and are no longer used at this facility. Remove these materials from your disclosure or email me to let me know that you are now storing them on site. Submit corrections within 30 days. Violation I239 cited during the 12/5/2019 inspection, remains outstanding. Submit annual business emergency plan training documentation to this Agency within 30 days.

Eval Notes:	On site for a routine hazardous waste inspection. Permission to conduct the inspection was granted by Joey Lira. Facility generates the following hazardous wastes: oily water, oil contaminated absorbents and rags, used oil, paint booth filters and paint debris, paint thinner/solvent, machine coolant and sand blast dust Containers of hazardous waste were observed with labels that did not contain all of the required information. Labels were missing the word hazardous and not all labels contained the accumulation start date or hazardous characteristic (see violation). Ensure that all containers of hazardous waste contain all of the following information: words hazardous waste , facility information, accumulation start date, physical state and hazardous characteristic. Containers were observed to be stored closed with the exception of one drum of paint waste (see violation). The paint waste drum was observed with a funnel which was open but also did not have a [Truncated]

Violations Found:	Yes
Eval Type:	Industrial Storm Water Compliance Evaluation
Eval Notes:	SWPPP was dated 1992 and needs to be revised and updated. In the outside smoking area, housekeeping was very poor with hundreds of cigarette butts, dirt and debris scattered on the ground. Two leaks in the roof drain were observed in this area. Oil and metal residue had leaked over the fenced and bermed hazardous materials storage area, because waste inside the area was overhanging the berm. A moderate amount of oil and grease was observed surrounding waste bins. Spill control mats in the chemical storage area had reached capacity and should be replaced. Mr. Arellano was advised to include three sampling points for the upcoming rainy season; if samples test uniformly low, then next season they may composite samples.

Eval Notes:	On site to conduct an initial APST inspection. Inspection was conducted with Joey Lira. This Agency has verified that the facility is regulated under the Aboveground Storage Tank Act (APSA). The facility has between 1,320 and 9,999 gallons of regulated petroleum products stored as follows: 17 x 55-gallon containers of lubricating fluids containing petroleum and waste oil, 1 x 750 gallon tank of used oil. The APST inspection program and Spill Control and Countermeasure Plan (SPCC) requirements were discussed. Orange County Environmental Health has created a website that contains information regarding the APST program and its requirements. The SPCC Plan requirements and SPCC plan templates for Tier I (store less than 10,000 gallons, with no single tank/container having a volume greater than 5,000 gallons) and Tier II (store less than 10,000 gallons, with at least one single tank/container having a volume equal to or greater than 5,000 gallons) facilities have also [Truncated]

Eval Notes:	Tony Arellano, Environmental Compliance Officer, goes home each day at 1:30 p.m. and so was not onsite for the inspection which was later in the afternoon. The company operates in 2 shifts. No SWPPP could be located in Mr. Arellano's absence. About 10 open 55-gallon drums of metal shavings mixed with oil and one open dumpster with the same contents were observed at the rear of the facility. A liquid which looked like oil was observed beneath the dumpster. Chemical storage and chemical drums with dispensers were in a covered area, but no BMPs for spills/leaks were noted.

PLACENTIA FACILITY (Continued) **U003433052**

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
Registry ID: 110011395677

Click Here:

Environmental Interest/Information System:
NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.
Registry ID: 110002892095

Click Here:

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous Waste Summary:
Waste Code: D001
Waste Description: IGNITABLE WASTE

Waste Code: D002
Waste Description: CORROSIVE WASTE

Waste Code: D006
Waste Description: CADMIUM

Waste Code: D007
Waste Description: CHROMIUM

Waste Code: D008
Waste Description: LEAD

Waste Code: D018
Waste Description: BENZENE

Waste Code: D035
Waste Description: METHYL ETHYL KETONE

Waste Code: D038

HARTWELL CORP (Continued) **1000422908**

Waste Description: PYRIDINE

Waste Code: D039
Waste Description: TETRACHLOROETHYLENE

Waste Code: F002
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: U002
Waste Description: 2-PROPANONE (I) (OR) ACETONE (I)

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Citation: HSC 6.95 25508(d) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(d)
Violation Description: Failure to complete and/or electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.
Violation Notes: Returned to compliance on 07/11/2015.
Violation Division: Orange County Environmental Health
Violation Program: HMRRP
Violation Source: CERS,

Site ID: 354697
Site Name: MASON WEST INC
Violation Date: 06-15-2016
Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description: Failure to establish and electronically submit an adequate training program in safety procedures in the event of a release or threatened release of a hazardous material.
Violation Notes: Returned to compliance on 06/21/2016. No training records were available for review. Failure to provide and maintain records of annual training and refreshers to employees about hazardous materials and emergency response plan. The training sign in sheet should include: name, date, signature and type of training. Please provide training for the employees and submit training documentation within 30 days. Training records were submitted to OC CUPA on 6/21/16 and violation was abated.

Eval Notes:	EMPLOYEE TRAINING During an inspection of your facility conducted on 6/14/2016, it was noted that you did not have business emergency plan training documentation. At the time of the inspection, you were given 30 days to forward a copy of the required document to this Agency. As of the date of this notice, documentation of training has not been received. Violation I239 remains outstanding and must be corrected. In addition, during review of your facility s CERS submittal conducted on 6/22/2016, it was noted that you did not submit the business emergency plan and training module. This agency requires business to correct deficiencies in their submittals within 30 days. As of the date of this notice, emergency plan and training documents have not been submitted. Violation I736 remains outstanding and must be corrected. Submit annual employee training documentation to this Agency and emergency plan and training module to CERS within 30 days to avoid further enforcement [Truncated]

Eval Notes:	Inspector Comments: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency

MASON WEST INC (Continued) **S123512159**

Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit the following HMD/BEP forms within the next 30 days: - Business Activities form - Owner/Operator Identification form - Hazardous Material Chemical Inventory forms - Facility Site Map - Business [Truncated]

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Eval Notes: Inspector Comments: Orange County Environmental Health as the Certified Unified Program Agency (OC CUPA) is the administrating agency for the Hazardous Materials Disclosure and Business Emergency Plan programs (HMD/BEP) previously administered by the Orange County Fire Authority. During the months of August and December of 2013, the OC CUPA sent out letters to regulated businesses requesting them to electronically submit their HMD/BEP forms. Electronic submission of these forms is a legal requirement. Failure to submit HMD/BEP forms is in violation of the California Health & Safety Code Chapter 6.95. According to our records there is no electronic submission for this facility. Please go to www.esubmit.ocgov.com to request a username and password and submit the following HMD/BEP forms within the next 30 days: - Business Activities form - Owner/Operator Identification form - Hazardous Material Chemical Inventory forms - Facility Site Map - Business [Truncated]

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Mailing Address:	3905 E MIRALOMA AVE
Year:	2019
Gepaid:	CAR000095729
TSD EPA ID:	AZR000520304
CA Waste Code:	181 - Other inorganic solid waste
Disposal Method:	H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons:	0.45000
Year:	2019
Gepaid:	CAR000095729
TSD EPA ID:	NVT330010000
CA Waste Code:	181 - Other inorganic solid waste
Disposal Method:	H132 - Landfill Or Surface Impoundment That Will Be Closed As Landfill(To Include On-Site Treatment And/Or Stabilization)
Tons:	2.27500
Year:	2019
Gepaid:	CAR000095729
TSD EPA ID:	NVT330010000
CA Waste Code:	792 - Liquids with pH <= 2 with metals
Disposal Method:	H132 - Landfill Or Surface Impoundment That Will Be Closed As Landfill(To Include On-Site Treatment And/Or Stabilization)
Tons:	7.79790
Year:	2019
Gepaid:	CAR000095729
TSD EPA ID:	AZR000520304
CA Waste Code:	223 - Unspecified oil-containing waste
Disposal Method:	H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons:	5.90000
Year:	2019
Gepaid:	CAR000095729
TSD EPA ID:	CAD008252405

CPPG INC (Continued) **S113175816**

CA Waste Code: 343 - Unspecified organic liquid mixture
Disposal Method: H061 - Fuel Blending Prior To Energy Recovery At Another Site
Tons: 0.18700

Year: 2018
Gepaid: CAR000095729
TSD EPA ID: AZR000520304
CA Waste Code: 223 - Unspecified oil-containing waste
Disposal Method: H141 - Storage, Bulking, And/Or Transfer Off Site--No Treatment/Reovery (H010-H129) Or (H131-H135)
Tons: 6.58805

Year: 2018
Gepaid: CAR000095729
TSD EPA ID: NVT330010000
CA Waste Code: 792 - Liquids with pH <= 2 with metals
Disposal Method: H132 - Landfill Or Surface Impoundment That Will Be Closed As Landfill(To Include On-Site Treatment And/Or Stabilization)
Tons: 3.44005

Year: 2018

Click Here:

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Gepaid: CAL000361172
TSD EPA ID: CAT080013352
CA Waste Code: 222 - Oil/water separation sludge
Disposal Method: H039 - Other Recovery Of Reclamation For Reuse Including Acid Regeneration, Organics Recovery Ect
Tons: 5.94225

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.
