Regular Meeting

January 6, 2021

5:00 p.m.

City Council Chambers

401 E. Chapman Avenue, Placentia, CA 92870

SPECIAL PROCEDURES NOTICE DURING COVID-19 EMERGENCY

On March 4, 2020, Governor Newsom proclaimed a State of Emergency as a result of the threat of the COVID-19 virus.

On March 17, 2020, Governor Newsom issued Executive Order N-29-20, which temporarily suspends requirements of the Brown Act allowing public meetings to be held via teleconferencing and make public meetings accessible telephonically or otherwise electronically to all members of the public seeking to observe and to address the Placentia Enhanced Infrastructure Financing District Public Financing Authority.

Given the health risks associated with COVID-19, please be advised that the City Council Chambers are closed to the public. Some, or all, of the Placentia Enhanced Infrastructure Financing District Public Financing Authority Members may attend this meeting telephonically. Those locations are not listed on the agenda and are not accessible to the public.

How to Observe the Meeting

To maximize public safety while maintaining transparency and public access, all Placentia Enhanced Infrastructure Financing District Public Financing Authority meetings are available to view live on AT&T U-verse (Channel 99), Spectrum (Channel 3), and online at www.placentia.org/pctv.

How to Submit Public Comment

Written comments must be directed to: Economic Development Division, 401 E. Chapman Avenue, Placentia CA 92870, Attn: Jeannette Ortega, Assistant to the City Administrator at jortega@placentia.org. Any person with oral comments or objections related to the proposed EIFD may participate virtually at <https://zoom.us/j/87127918729> or by phone at 1-669-900-6833 (Webinar ID: 871 2791 8729).

Any person having any objections to the proposed IFP, or the regularity of any of the prior proceedings, may email before 4:00 p.m. on January 6, 2021 or participate virtually or by phone to object to the adoption of the proposed IFP by the Public Financing Authority. If you are unable to provide your comments in person or in writing, please contact the Economic Development Division for assistance at (714) 993-8264.

Americans with Disabilities Act Accommodation

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact the City Clerk's Office at cityclerk@placentia.org or by calling (714) 993-8231. Notification 48 hours prior to the meeting will generally enable City Staff to make reasonable arrangements to ensure accessibility while maintaining public safety. (28 CFR 35.102.35.104 ADA Title II).

Until further notice the City will implement the guidelines of the California Department of Public Health regarding social distancing. The City of Placentia thanks you in advance for taking all precautions to prevent the spread of the COVID-19 virus. The City will return to normal public meeting procedures as soon as the emergency has ended.

DATE: JANUARY 6, 2021

SUBJECT: **PUBLIC HEARING TO CONSIDER ALL WRITTEN AND ORAL PROTESTS ALONG WITH THE RECOMMENDATIONS, IF ANY, OF AFFECTED TAXING ENTITIES, AND TO TERMINATE THE PROCEEDINGS OR ADOPT THE ENHANCED INFRASTRUCTURE FINANCING DISTRICT (EIFD) INFRASTRUCTURE FINANCING PLAN (IFP) SUBJECT TO CONFIRMATION BY THE VOTERS AT AN ELECTION CALLED FOR THAT PURPOSE IF APPROPRIATE**

FISCAL
IMPACT: Up to \$12,647,000 in Property Tax Increment Revenue Over Approximately 20 Years

SUMMARY:

The Placentia Enhanced Infrastructure Financing District ("Placentia EIFD") is being formed as a partnership between the City of Placentia and the County of Orange. The Placentia EIFD is being established as a means to fund critical infrastructure of communitywide and regional significance with a focus on the Old Town Placentia Revitalization Plan area, by providing a means to capture property tax increment revenue ("TI") generated by new development within the district. On January 1, 2020, California EIFD legislation was revised to incorporate Assembly Bill 116 ("AB 116"), which modified both the process by which EIFDs are formed and the requirements to achieve approval to issue debt secured by EIFD revenues. The AB 116 process requires three (3) public hearings to be held at least 30 days apart so that the PFA Staff can present the EIFD Infrastructure Financing Plan ("IFP") in a public forum and receive input from landowners and residents within the district. If there is no majority protest, the Public Financing Authority (PFA) may approve both district formation and future debt issuance by the PFA with a majority vote of the PFA board, without a subsequent election.

On August 11, 2020 the City Council approved Resolution No. R-2020-52 which formally announces and set forth the future PFA meeting and public hearing dates in order to comply with the current EIFD statute and achieve authorization to issue EIFD debt. On September 2, 2020, PFA Staff and consultant Kosmont Companies presented the contents of the IFP at a public meeting. On October 14, 2020, the PFA held a public hearing to hear additional written and oral comments but took no action. On November 18, 2020, the PFA held their second public hearing to hear additional written and oral comments but took no action. This third and final Public Hearing

will provide the opportunity for the PFA to conduct a majority protest opportunity (among landowners and residents in the area of the EIFD who are at least 18 years of age), and if there is no majority protest, introduce an ordinance to approve the IFP and formally establish the EIFD. A second reading of the ordinance would occur at a regular meeting of the PFA. The PFA shall terminate the proceedings if there is a majority protest. A majority protest exists if protests have been filed representing over 50 percent of the combined number of landowners and residents in the area who are at least 18 years of age. An election shall be called if between 25 percent and 50 percent of the combined number of landowners and residents in the area who are at least 18 years of age (collectively, the "electorate") file a protest.

RECOMMENDATION:

It is recommended that the Public Financing Authority take the following actions:

1. Open the Public Hearing concerning the Placentia EIFD IFP; and
2. Receive the Staff Report and consider all Public Testimony, including all written and oral comments on the IFP and all written and oral protests; and
3. Close the Public Hearing; and
4. As appropriate, take action to terminate the proceedings (if over 50 percent of the electorate protests), call an election to confirm approval by the electorate (if between 25 percent and 50 percent of the electorate protests), or introduce an ordinance to adopt the IFP and form the Placentia EIFD (if less than 25 percent of the electorate protests).

DISCUSSION:

The Placentia EIFD is being formed as a partnership between the City of Placentia and the County of Orange. District formation is being supported by subject matter expert consultant, Kosmont Companies.

The Placentia EIFD will be a governmental entity, separate and distinct from the City and the County, and is governed by the PFA, which is comprised of two (2) members of the Placentia City Council, one (1) Orange County Supervisor, and two (2) members of the public appointed by the City Council and County Board of Supervisors.

The Placentia EIFD is being established as a means to fund critical infrastructure of communitywide and regional significance with focus on the Old Town Placentia Revitalization Plan area, by providing a means to capture property tax increment revenue ("TI") generated by new development within the district. EIFDs provide an opportunity for agencies to issue bonds for an array of public infrastructure projects as well as supporting economic development efforts. At the time of the prior district formation proceedings, it was assumed that the PFA would seek authorization to issue debt in the future pursuant to the requirements of the EIFD statute that were then in effect, which stipulated a 55% voter approval by the landowners or registered voters, as applicable, within the EIFD boundary.

On January 1, 2020, California EIFD legislation was revised to incorporate Assembly Bill 116 ("AB 116"), which modified both the process by which EIFDs are formed and the requirements to achieve approval to issue debt secured by EIFD revenues. The AB 116 process requires three (3) public hearings to be held at least 30 days apart so that the PFA Staff can present the EIFD Infrastructure Financing Plan ("IFP") in a public forum and receive input from landowners and residents within the district. Landowners and registered voters have the opportunity to protest the district formation at the last of the three (3) hearings. If there is no majority protest, the PFA may approve both district formation and future debt issuance by the EIFD with a majority vote of the PFA board, without a subsequent vote by the landowners or registered voters within the district.

On August 11, 2020 the City Council approved Resolution No. R-2020-52 which formally announces and set forth the future PFA meeting public hearing dates in order to comply with the current EIFD statute and achieve authorization to issue EIFD debt. The City Council also established October 14, 2020, November 18, 2020 and January 6, 2021, at the hour of 5:00 p.m. or as soon as possible thereafter as the matter may be heard, at the Council Chambers, 401 E. Chapman Avenue, Placentia, California, as the dates, time and place, when and where the PFA will conduct three public hearings on the IFP for Placentia EIFD. On September 2, 2020, PFA Staff and consultant Kosmont Companies presented the contents of the IFP at a public meeting. On October 14, 2020, the PFA held a public hearing to hear additional written and oral comments but took no action. On November 18, 2020, the PFA held their second public hearing to hear additional written and oral comments but took no action.

Infrastructure Financing Plan

The IFP prepared by Kosmont for the Placentia EIFD includes tax increment revenue projection updates, caps to the maximum tax increment revenue and bond authorization for the proposed EIFD contained in the IFP, and district formation and election cost information. The PFA is responsible for preparation and final adoption of an IFP for the Placentia EIFD, and the draft IFP is a proposal that is provided for the PFA to consider.

Preliminary Projected Tax Increment Updates

Kosmont conducted a baseline tax increment analysis to determine district revenue potential based on planned/proposed projects and future development potential. Actual TI revenues are subject to changes in the types and timing of development and the real estate market.

Development Type	Sq. Ft./Units	Assessed Value Factor (2018\$)	Estimated AV (2018\$)
Residential	1,600 units	\$250K per unit	~\$400 million
Commercial/Retail/Office	125,000 sq. ft.	\$250 per sq. ft.	~\$31 million
Hotel	116 rooms	\$250K per room	~\$29 million
TOTAL			~\$460 million

Based on this analysis, the City's contribution is expected to be approximately 48% of its share of property tax increment (~6.5 out of 13.6 cents on the dollar) within the district boundary for a maximum of \$9,100,000 total over the approximately 20-year district lifetime. The County's contribution is expected to be approximately 43% of its share (~2.5 out of 5.9 cents) within the district boundary for a maximum of \$3,547,000 total over the approximately 20-year district lifetime.

While the Placentia area would benefit from a new dedicated revenue source for infrastructure improvements, formation of the Placentia EIFD would result in a reallocation of property tax TI revenue from the City's General Fund. Once the Placentia EIFD terminates, TI revenue would no longer be allocated to the Placentia EIFD and will flow back into the City's General Fund.

Financial Implication of Establishing Placentia EIFD

Kosmont concluded several regional financial implications for the establishment of the Placentia EIFD, including providing essential regional transportation infrastructure improvements, improved regional competitiveness for Federal/State grant funds and supports County's Comprehensive Economic Development Strategy (e.g., job creation, quality of life improvement, promotion of environmental sustainability). Locally, based on Kosmont gross economic impact analysis, approximately 3,900+ construction jobs will be created, 1,150+ permanent jobs will be created, \$800+ million in economic output from construction, and \$164+ million in annual ongoing economic output. The resulting overall establishment of the Placentia EIFD will have created an acceleration of development and related fiscal revenues in the amount of approximately \$22 million in net fiscal impact to the City and \$15 million in net fiscal benefit to the County (present value net fiscal benefit over 50 years).

Community Participation and Public Outreach Efforts

There are a number of steps in the Placentia EIFD process that require public outreach and participation. Following this Public Hearing, there are two additional forthcoming Public Hearings to be held by the PFA, each to be announced with mailing and newspaper notices at least 10 days in advance. The draft IFP will remain available for public inspection on the EIFD website at www.placentia.org/EIFD and on file in the office of the City Clerk located at 401 East Chapman Avenue, Placentia, California. Stakeholders will have the opportunity to voice their opinion to the PFA at the Public Hearings. Additionally, the issuance of bonds by the Placentia EIFD will involve public outreach.

FISCAL IMPACT:

As described above, preliminarily, it is projected that approximately \$8 million could be generated in net bond/loan proceeds over the approximately 20-year term of the proposed Placentia EIFD, to help fund core public infrastructure needed to support Placentia's growth. Placentia's contribution is expected to be approximately 48% of its share of property tax increment (~6.5 out of 13.6 cents on the dollar) within the district boundary for a maximum of \$9,100,000 total over the approximately 20-year district lifetime. The County's contribution is expected to be approximately 43% of its share (~2.5 out of 5.9 cents) within the district boundary for a maximum of \$3,547,000 total over the approximately 20-year district lifetime.

WHEREAS, pursuant to Chapter 2.99 of Part 1 of Division 2 of Title 5 of the California Government Code (commencing with Section 53398.50) (the "EIFD Law"), the City Council of the City of Placentia (the "Council") formed a Public Financing Authority (the "Authority"); and

WHEREAS, the Authority has prepared the Infrastructure Financing Plan (the "IFP") which is attached hereto as Exhibit "A"; and

WHEREAS, the IFP was sent to the Council, the City Planning Commission, to all landowners in the proposed district and to all affected taxing entities pursuant to EIFD Law; and

WHEREAS, the Council, on June 18, 2019, by Resolution No. 2019-28, approved the IFP; and

WHEREAS, the Orange County Board of Supervisors, on June 25, 2019, by Resolution No. 19-060, approved the IFP; and

WHEREAS, three public hearings on the IFP were duly noticed and held on October 14, 2020, November 18, 2020, and January 6, 2021, in accordance with Government Code Section 53398.66; and

WHEREAS, the Authority has heard and passed upon written and oral objections, if any, and has considered the recommendations, if any, of affected taxing agencies and testimony for and against the adoption of the IFP.

NOW, THEREFORE, THE PUBLIC FINANCING AUTHORITY FOR THE PLACENTIA ENHANCED INFRASTRUCTURE FINANCING DISTRICT DOES HEREBY ORDAIN AS FOLLOWS:

1. **Adoption of Infrastructure Financing Plan.** The IFP attached hereto as Exhibit "A" is hereby adopted.

2. **Formation of Placentia Enhanced Infrastructure Financing District.** The Placentia Enhanced Infrastructure Financing District is hereby formed.

3. **Environmental Determination.** The IFP is exempt from the California Environmental Quality Act (15378(b)(4)) because a "Project" does not include government funding mechanisms and also (15061(b)(3)) because CEQA does not apply where it can be determined with certainty that there is no possibility that there will be a significant effect on the environment and that no additional environmental review is required.

4. **Ordinance to Serve as a Resolution.** In accordance with the authority provided by Government Code Section 53398.69(a)(1) this ordinance shall also be given effect as a resolution approving the IFP.

5. **Severability.** If any provision of this ordinance is found to be unconstitutional or otherwise invalid by any court of competent jurisdiction, that invalidity shall not affect the remaining provisions of this ordinance which can be implemented without the invalid provisions, and to this end, the provisions of this ordinance are declared to be severable. The Authority declares that it would have adopted this

ordinance and each provision thereof irrespective of whether any one or more provisions are found invalid, unconstitutional or otherwise unenforceable.

6. **Effective Date.** This Ordinance shall become effective 31 days following its enactment and shall be subject to referendum as prescribed by law.

7. **Certification.** The Chairperson shall sign, and the Authority Secretary shall certify to the passage and adoption of this Ordinance and shall cause the same to be published and posted pursuant to the provisions of law in that regard.

1.0 Introduction

1.1 Background & Purpose

The proposed Placentia Enhanced Infrastructure Financing District (“Placentia EIFD” or “District”) will serve as a catalyst for private development and critical regional transportation infrastructure with transformative potential for the City of Placentia (“City”) and the North Orange County region. The Placentia EIFD encompasses just over 300 acres of land, representing approximately 7% of the City. The Placentia EIFD includes the City’s Old Town Placentia Revitalization Plan area, a forthcoming Metrolink station, and the City’s Transit-oriented Development (“TOD”) Packing House District. The District represents a partnership between the City and the County of Orange (“County”), and as such, will be funded by property tax increment from both taxing entities. The Southern California Association of Governments (“SCAG”) has additionally provided funding assistance for the technical analysis associated with this Infrastructure Financing Plan through its Tax Increment Financing Pilot Project Program.

1.2 Contents and Overview of this Infrastructure Financing Plan (“IFP”)

Pursuant to Government Code Sections 53398.59 through 53398.74, this IFP comprises the following information:

- a) A map and legal description of the District, [included herein as Appendix A and Appendix B, respectively.](#)
- b) A description of the public facilities and other forms of development or financial assistance that is proposed in the area of the district, including those to be provided by the private sector, those to be provided by governmental entities without assistance under this chapter, those public improvements and facilities to be financed with assistance from the proposed district, and those to be provided jointly. The description shall include the proposed location, timing, and costs of the development and financial assistance. [This information is included in Section 3 of this IFP.](#)
- c) If funding from affected taxing entities is incorporated into the financing plan, a finding that the development and financial assistance are of communitywide significance and provide significant benefits to an area larger than the area of the district. [This information is included in Section 4 of this IFP.](#)
- d) A financing section ([included in Section 5 of this IFP](#)), which shall contain all of the following information:
 - a. A specification of the maximum portion of the incremental tax revenue of the city or county and of each affected taxing entity proposed to be committed to the

district for each year during which the district will receive incremental tax revenue. The portion need not be the same for all affected taxing entities. The portion may change over time. The maximum portion of the City's property tax increment to be committed to the District will be 50% throughout the duration of the District lifetime. Equivalently for the County, the maximum portion of the County's property tax increment to be committed to the District will be 50% throughout duration of the District lifetime, which is projected to be twenty (20) years from the date on which the first issuance of bonds or acquisition of a loan is approved by the Public Financing Authority ("PFA"). For reference when considering this maximum yearly contribution, the total dollar contribution limit discussed in letter (d) below translates into a total commitment of less than 50% of incremental property tax by both the City and County over the district lifetime.

- b. A projection of the amount of tax revenues expected to be received by the district in each year during which the district will receive tax revenues, including an estimate of the amount of tax revenues attributable to each affected taxing entity for each year. Section 5.3 of this IFP includes a projection of tax revenues to be received by the District by year over the course of twenty (20) years from the date on which the first issuance of bonds or acquisition of a loan is approved by the PFA. These projections are based on research and analysis of available data at the time of IFP preparation for purposes of illustration. Actual results may differ from those expressed in this document. Appendix C provides additional detail for the projected revenue analysis.
- c. A plan for financing the public facilities to be assisted by the district, including a detailed description of any intention to incur debt. Section 5.4 of this IFP includes a plan for financing the public facilities to be assisted by the District. The PFA governing the District intends to incur debt only when it is financially prudent to do so. It is estimated at this time that approximately \$8 million of bond or loan proceeds (in current 2019 dollars) will be secured over the District lifetime (multiple issuances may be necessary).
- d. A limit on the total number of dollars of taxes that may be allocated to the district pursuant to the plan. The total number of dollars or taxes that may be allocated to the District shall not exceed \$12,647,000. This translates into a maximum allocation of \$9,100,000 million from the City and \$3,547,000 from the County over the District lifetime. This maximum has been set based on preliminary underwriting of various debt issuance alternatives evaluated to fund approximately \$8 million in required infrastructure improvements.
- e. A date on which the district will cease to exist, by which time all tax allocation to the district will end. The date shall not be more than 45 years from the date on which the issuance of bonds is approved pursuant to subdivision (a) of Section

53398.81, or the issuance of a loan is approved by the governing board of a local agency pursuant to Section 53398.87. The District will cease to exist the earlier of: (i) 20 years from the date on which the first issuance of bonds or acquisition of a loan is approved by the PFA, or (ii) June 30, 2044. This IFP assumes that the District will be formed in Fiscal Year 2019-2020 and will begin receiving tax revenues in Fiscal Year 2020-2021. It is assumed in the financial projections that the first approval for the issuance of bonds or acquisition of a loan will occur in Fiscal Year 2022-2023.

- f. An analysis of the costs to the city or county of providing facilities and services to the area of the district while the area is being developed and after the area is developed. The plan shall also include an analysis of the tax, fee, charge, and other revenues expected to be received by the city or county as a result of expected development in the area of the district. Appendix D to this IFP includes, as part of the Fiscal Impact Analysis, an analysis of the costs to the City and County for providing facilities and services to the area of the District. It is estimated that, at Year 20 of the District lifetime, annual costs to the City will be approximately \$2,336,500, and annual costs to the County will be approximately \$565,900 to service the area of the District.
- g. An analysis of the projected fiscal impact of the district and the associated development upon each affected taxing entity. Appendix D to this IFP includes an analysis of the projected fiscal impact of the District and the associated development upon both the City and the County, as the only two affected taxing entities that are contributing tax increment revenues to the District. It is estimated that, at Year 20 of the District lifetime, the District area will generate an annual net fiscal surplus of \$2,328,500 to the City and an annual net fiscal surplus of \$1,270,210 to the County.
- h. A plan for financing any potential costs that may be incurred by reimbursing a developer of a project that is both located entirely within the boundaries of that district and qualifies for the Transit Priority Project Program, pursuant to Section 65470, including any permit and affordable housing expenses related to the project. The PFA does not intend to finance any potential costs that may be incurred by reimbursing a developer of a project that is both located entirely within the boundaries of the District and qualifies for the Transit Priority Project Program, pursuant to Section 65470.
- e) If any dwelling units within the territory of the district are proposed to be removed or destroyed in the course of public works construction within the area of the district or private development within the area of the district that is subject to a written agreement with the district or that is financed in whole or in part by the district, a plan providing for replacement of those units and relocation of those persons or families consistent with the

requirements of Section 53398.56. The PFA does not anticipated that any housing units will be removed as a result of any project identified in this IFP. However, if any relocation of dwelling units is deemed to be required in the future for a project financed by the District, the PFA will comply with the requirements of Government Code Section 53398.56.

- f) The goals the district proposes to achieve for each project financed pursuant to Section 53398.52. Section 7 of this IFP summarizes the goals of each project to be financed by the District.

2.0 Description of the Proposed District

The Placentia EIFD encompasses just over 300 acres of land, representing approximately 7% of the City's total 4,243 acres. The District can be characterized as a developing area of the City within the Old Town Placentia area, the TOD Packing House District, and parcels south of the TOD Packing House District and adjacent to the 57 freeway.

Land use designations in the District include residential, commercial, industrial, open space and parks. The newly established Old Town Revitalization Plan, the TOD Packing House District, the prime industrial lands, and the planned hospitality areas make this area the City's prime location for establishing an EIFD.

Appendix A includes a map of the proposed District, and Appendix B is a legal description of the District.

3.0 Description of Proposed Facilities and Development

3.1 Anticipated Future Private Development

Anticipated future private development is summarized in Table 1 below. Approximately 1,600 residential dwelling units, 125,000 square feet of commercial, and approximately 116 hotel rooms are anticipated primarily in the Old Town Revitalization Area and adjacent TOD Packing House District (identified on the map in Appendix A). Buildout and absorption of these land uses are forecasted in the first 10 years of the District lifetime.

Table 1: Anticipated Future Private Development

Development Type	SF / Units	AV Factor 2018\$	Estimated AV 2018\$
Residential	1,600 Units	\$250K per Unit	~\$400 million
Commercial / Retail / Office	125,000 SF	\$250 PSF	~\$31 million
Hotel	116 Rooms	\$250K per Room	~\$29 million
Estimated Total			~\$460 million

3.2 Public Facilities to be Financed with Assistance from the Placentia EIFD

The PFA intends to utilize the District to assist the funding of transit-supportive public infrastructure, including improvements to bicycle and pedestrian connectivity, sidewalks, landscaping, signage, lighting, beautification, public safety access, parking, roadway, circulation, open space, water, sewer and other utility capacity improvements, with emphasis on implementation of the Old Town Placentia Revitalization Streetscape Master Plan, with an estimated cost of approximately \$8 million in current 2019 dollars.

The PFA intends to continue to identify, evaluate, and pursue additional funding sources and financing mechanisms aside from District tax increment to implement the improvements identified above, potentially including grant sources, impact fees, private sector investment incentivized by the Federal Opportunity Zones tax program, and/or other sources. The City intends to implement a Community Facilities District (“CFD”) to assist with ongoing maintenance of public improvements installed in the District. Appendix E provides additional detail on anticipated public facilities to be financed with assistance from the District.

Private sector developers will be responsible for funding project-specific / fair-share / in-tract infrastructure, and also some public infrastructure improvements within the TOD Packing House District. Some public facilities not-included within the Old Town Placentia Revitalization Streetscape Master Plan are anticipated to be provided by governmental entities without assistance from the District. There are no public facilities anticipated to be provided jointly by the private sector and governmental entities.

4.0 Finding of Communitywide Significance

Implementation of the District promotes the goals of the City's General Plan, supports essential regional transportation connectivity via the forthcoming Metrolink station, and supports the County's Comprehensive Economic Development Strategy, in pursuit of job creation, improvement of quality of life, and promotion of environmental sustainability within the County.

Specific communitywide and regional benefits anticipated to be generated by the District include:

- \$60 million in net fiscal impact to the City over 50 years (on a present-value basis)
- \$32 million in net fiscal impact to County over 50 years (on a present-value basis)
- 1,600 housing units within the District
- 3,900+ construction jobs in the City and County
- 1,150+ permanent jobs in the City and County
- \$800+ million in economic output from construction in the City and County
- \$164+ million in annual ongoing economic output in the City and County
- Convenient transit to local universities
- Greenhouse Gas (GHG) and Vehicles Miles Travelled (VMT) reduction through public transit.

5.0 Financing Section

Projections included in this IFP are based on research and analysis of available data at the time of IFP for purposes of planning and illustration. Actual results may differ from those expressed in this document.

The Placentia EIFD represents a partnership between the City and County, and as such, will be funded by property tax increment from both taxing entities. No other taxing entity is contributing property tax increment to the District. It is anticipated that property tax increment will be utilized on both a “pay-as-you-go” basis as well as security for tax increment bond issuance or loan acquisition.

Portions of the Placentia EIFD are located within the boundaries of the former Redevelopment Project Area of the former Redevelopment Agency of Placentia, and so property tax revenues generated by the properties within the overlapping area will flow according to the Redevelopment Agency dissolution statutes until all of the Successor Agency’s obligations are retired (currently anticipated in 2032). Redevelopment Property Tax Trust Fund (“RPTTF”) residual revenues are intended to be contributed by the City and County to the District as part of the maximum allocations outlined in the following sections.

While not anticipated to be contributed by the City, the City will retain the authority to dedicate incremental property tax revenue allocated to the City in lieu of motor vehicle license fees to the District pursuant to Government Code Section 53398.75(e)(1).

5.1 Maximum Portion of Incremental Tax Revenue Dedicated to the District

The maximum portion of the City’s property tax increment to be committed to the District will be 50% throughout the District lifetime. Equivalently for the County, the maximum portion of the County’s property tax increment to be committed to the District will be 50% throughout the District lifetime. For reference when considering this maximum yearly contribution, the total dollar contribution limit discussed in Section 5.4 below translates into a total commitment of less than 50% of incremental property tax by both the City and County over the district lifetime.

5.2 Projection of District Tax Revenues by Year

Table 2 provides an overview of the projected growth of assessed value, property tax increment, and City and County contributions to the District over the District lifetime. It is expected that a total of \$9,100,000 of incremental tax revenues will be allocated to the District by the City, and a total

of \$3,547,000 of incremental tax revenues will be allocated to the District by the County, for a total allocation of taxes revenues to the EIFD of \$12,647,000.

Note: It is assumed in these projections that the maximum District revenue allocation of \$12,647,000 is reached in Fiscal Year 2041-2042. Present value at 3% discount rate.

These projections are based on research and analysis of available data at the time of IFP preparation for purposes of illustration. Actual results may differ from those expressed in this document. Appendix C provides additional detail for the projected revenue analysis.

5.3 Plan for Financing Public Facilities

The PFA intends to utilize numerous funding sources and financing mechanisms to implement the improvements identified in Section 3.2, potentially including District tax increment, grant sources, impact fees, private sector investment incentivized by the Federal Opportunity Zones tax program, and/or other sources. Separate from its participation in the District, the City intends to implement a CFD to assist with ongoing maintenance of public improvements installed in the District.

As it pertains to the use of District tax increment, the PFA intends to incur debt only when it is financially prudent to do so. It is estimated at this time that approximately \$8 million of bond or loan proceeds (in current 2019 dollars) will be secured over the District lifetime. It may be the case that multiple debt issuances will be necessary to achieve the targeted \$8 million of funding. It is assumed in the financial projections that the first approval for the issuance of bonds or acquisition of a loan will occur in Fiscal Year 2022-2023.

5.4 Limit on Total Dollars Allocated to the District

The total number of dollars or taxes that may be allocated to the District shall not exceed \$12,647,000. This translates into a maximum allocation of \$9,100,000 from the City and \$3,547,000 from the County over the District lifetime. This maximum has been set based on preliminary underwriting of various debt issuance alternatives evaluated to fund approximately \$8 million in required infrastructure improvements.

5.5 District Termination Date

The District will cease to exist the earlier of: (i) 20 years from the date on which the first issuance of bonds or acquisition of a loan is approved by the PFA, or (ii) June 30, 2044. This IFP assumes that the District will be formed in Fiscal Year 2019-2020 and will begin receiving tax revenues in Fiscal Year 2020-2021. It is assumed in the financial projections that the first approval for the issuance of bonds or acquisition of a loan will occur in Fiscal Year 2022-2023.

5.6 Analysis of Costs to Provide Facilities and Services

Appendix D to this IFP includes, as part of the Fiscal Impact Analysis, an analysis of the costs to the City and County for providing facilities and services to the area of the District. It is estimated that, at Year 20 of the District lifetime, annual costs to the City will be approximately \$2,336,500, and annual costs to the County will be approximately \$565,900 to service the area of the District.

5.7 Fiscal Impact Analysis

Appendix D to this IFP includes an analysis of the projected fiscal impact of the District and the associated development upon both the City and the County, as the only two affected taxing entities that are contributing tax increment revenues to the District. Table 3 presents an overview of fiscal impacts to the City and County.

Table 3: Overview of Fiscal Impacts to City and County

	Annual (Stablized Year 20)	Year 0-50 Nominal Total	Year 0-50 Present Value @ 3.0%
City of Placentia			
Estimated Fiscal Revenues (Net of EIFD Contribution)	\$4,665,000	\$297,605,200	\$119,214,900
Estimated Fiscal Expenditures	\$2,336,500	\$146,663,200	\$59,527,900
Estimated Net Fiscal Impact to City	\$2,328,500	\$150,942,000	\$59,687,000
County of Orange			
Estimated Fiscal Revenues (Net of EIFD Contribution)	\$1,836,110	\$114,565,900	\$46,724,100
Estimated Fiscal Expenditures	\$565,900	\$35,541,000	\$14,434,100
Estimated Net Fiscal Impact to County	\$1,270,210	\$79,024,900	\$32,290,000

It is estimated that, at Year 20 of the District lifetime, the District area will generate an annual net fiscal surplus of \$2,328,500 to the City and an annual net fiscal surplus of \$1,270,210 to the County. Over 50 years, District activity will generate a positive net fiscal impact of approximately \$60 million for the City and \$32 million for the County on a present-value basis. This is in addition to the Community economic benefits outlined in Section 4 of this IFP (e.g. jobs, housing, transit to educational facilities, GHG and VMT reduction).

5.8 Developer Reimbursement for Transit Priority Project

The PFA does not intend to finance any potential costs that may be incurred by reimbursing a developer of a project that is both located entirely within the boundaries of the District and qualifies for the Transit Priority Project Program, pursuant to Section 65470. To the extent that a developer is willing to fund Transit Priority Project infrastructure expenditures beyond and in advance of said developer's fair share (not contemplated at this time), the PFA may consider and evaluate such reimbursement at the appropriate time.

6.0 Removal of Dwelling Units and Replacement Housing Plan

The PFA does not anticipated that any housing units will be removed as a result of any project identified in this IFP. However, if any relocation of dwelling units is deemed to be required in the future for a project financed by the District, the PFA will comply with the requirements of Government Code Section 53398.56.

7.0 Goals of the District

The goals of the District's implementation of the public facilities outlined in Section 3.2 is to support the City's General Plan, promote essential regional transportation connectivity via the Metrolink station, and implement the County's Comprehensive Economic Development Strategy. Furthermore, the District supports the SCAG Regional Transportation Plan and Sustainable Communities Strategy ("RTP/SCS") and Statewide policy goals of housing supply, sustainable infrastructure investment, and reduction of greenhouse gas emissions and vehicle miles travelled.

The underlying objectives include economic development in the form of fiscal revenue generation for the City and County, job creation, provision of new housing supply, improvement of quality of life, and promotion of environmental sustainability. The District will be utilized to address a critical infrastructure funding shortfall of approximately \$8 million (in current 2019 dollars), which is needed to catalyze private sector investment and development and further improve the region's competitiveness for state and federal grant programs.

roadway

Sternberg Lighting has an impressive collection of roadway poles and luminaires that can be used in a variety of applications. The poles are made of heavy-duty steel and are available in a variety of heights. The luminaires are made of high-quality aluminum and are available in a variety of styles. The poles and luminaires are designed to be durable and long-lasting. They are also designed to be easy to install and maintain. The poles and luminaires are available in a variety of colors and finishes. They are also available in a variety of sizes and shapes. The poles and luminaires are designed to be versatile and adaptable to a variety of environments. They are also designed to be energy-efficient and to provide excellent lighting. The poles and luminaires are a great choice for any street lighting application.

1531LED OMEGA SERIES

Optics

The luminaire shall be provided with individual refractor type optics applied to each LED. The luminaire shall provide Type 1, 2, 3, 3K, 4, or 5 light distribution per the IESNA classification. Testing shall be done in accordance with IESNA LM-79.

Electronic Drivers

The LED driver shall be UL recognized. It shall be securely mounted inside the fixture, for optimized performance and longevity. It shall be supplied with a quick-disconnect electrical connector on the power supply, providing easy power connections and fixture installation. It shall have overload as well as short circuit protection, and have a DC voltage output, constant current design, 50/60Hz. It shall be supplied with line-ground, line-neutral and neutral-ground electrical surge protection in accordance with IEEE/ANSI C62.41.2 guidelines. It shall be dimmable using a 0-10V signal.

For sources over 50W, the driver shall have a minimum efficiency of 90%. The driver shall be rated at full load with THD < 20% and a power factor of greater than 0.90. The driver shall contain over heat protection which reduces output to less than half rating if the case temperature reaches 85°C.

For sources under 50W, the driver shall have a minimum efficiency of 88%.

Photocontrols

Dutton Style: On a single assembly the photocontrol shall be mounted on the fixture and pre-wired to driver. On multiple head assembly's the photocontrol shall be mounted in the pole shaft on an access plate. The electronic button type photocontrol is instant on with a 5-10 second turn off, and shall turn on at 15 footcandles with a turn off at 2-3 footcandles. Photocontrol is 120-277 volt and warranted for 6 years.

Twist Lock Style: The photocontrol shall be mounted externally on the fixture and pre-wired to driver. The twist lock type photocontrol is instant on with a 3-6 second turn off, and shall turn on at 15 footcandles with a turn off at 2-3 footcandles. Photocontrol is 120-277 volt and warranted for 6 years.

7701LED BIRMINGHAM LIGHTED BOLLARD SPECIFICATIONS

GENERAL

The Model 7701LED decorative lighted bollard shall be cast aluminum, one-piece construction. The 16" diameter cast aluminum base shall be constructed with a 7/4" diameter straight fluted cast aluminum shaft. The Model shall be Sternberg Lighting 7701LED lighted bollard or 7701LED-QR quick release lighted bollard. The bollard shall be U.L. or E.T.L. listed in U.S. and Canada.

CONSTRUCTION

The base shall be designed with a tall and smoothly curved pedestal bottom section and transition to a tall twelve flute vertical bore section and be made of heavy wall, alloy cast aluminum. It shall have a 1" thick flange cast as an integral part of the base. The bollard cap shall be welded in place. The overall height of the bollard shall be 51".

ELECTRICAL/LED

The optical assembly shall be constructed of twelve (12) fluted openings with a white acrylic lens. The LED light source shall have an IP65 rated assembly. The assembly shall consist of highly efficient, four (4) optional three (3) sided extended aluminum heat sink, four (4) optional three (3) LED boards with 6 each high brightness 1.8 Ws and a sealed acrylic tube. The bollard shall be supplied with electrical surge protection as required with IEEE/ANSI C62.41.2 and shall be U.L. or E.T.L. listed in U.S. and Canada. The 1 LED lighted bollard shall have an L70 expected life of 70,000 hours with the LED life ratings determined in accordance with IESNA LM-80. The electronic LED driver shall be a U.L. Recognized, constant current design with THD < 20%.

QUICK RELEASE MOUNTING (Optional)

The Model 7701LED-QR shall have a quick release option which allows quick removal of the bollard for convenience or emergency access. The base portion shall be made of aluminum extrusion and shall have a keyway and flexible connection system for securing to bollard. The bollard shall have a molded extension and anti-theft key and padlock slot. The quick release system shall allow for a flush permanent installation after temporary bollard removal.

FINISH

Prior to coating, each assembly shall be chemically cleaned and etched in a 5-stage washing system which includes alkaline cleaning, rinsing, phosphoric etching, reverse osmosis water rinsing, and non-chlorine, scaling to ensure corrosion resistance and excellent adhesion for the finish coating. The finish coating shall be electrostatically applied semi-gloss, super durable polyester powder baked at 400 degrees for a durable and superior, color retentive finish. Our optional antique Nordic Green finish and Swedish Iron finish are hand finished using a 3-step process. The total assembly shall be wrapped in shockproof wrapping on fully enclosed in corrugated cartons.

INSTALLATION

Four hot dipped galvanized "L" type anchor bolts shall be provided with the post for non-quick release bollard anchorage. Quick release anchorage requires no anchor bolts. A door shall be provided for wiring and anchor bolt access. It shall be secured with tamper-proof, stainless steel hardware. Bollard will be provided with a mounting stud mounted on the base. Door supports the access door.

WARRANTY: Seven (7) year limited warranty. See product and finish warranty guide for details.

SHRUBS, GROUNDCOVERS & ACCENTS

The plant palette was developed using tools such as UC Davis' Water Use Classification of Landscape Species (*WUCOLS IV) <http://ucanr.edu/sites/WUCOLS/> to select plants that have low or very low water use for the City of Placentia bioregion and are durable, longer-lived, and require low levels of maintenance. For example, Callistemon, Hesperaloe, Lantana, Myoporum, and Rosmarinus all have low or very low water use and are evergreen, durable, commercially available, low-maintenance shrub species which are appropriate for street medians and right-of-ways. Alternatively, Agave, Dasyliirion, Sedum, Senecio, and Yucca hybrids are low and very low water use succulents and accents which can create bold striking landscapes when paired with cobble and rock blankets.

Efficient and minimal water use for public landscapes is now a State-wide requirement due to multiple years of low annual rainfall levels in California. Successful landscape solutions are those which combine low and very low water use plants with non-living landscape materials like stabilized decomposed granite, rock and cobble blanket (both loose and stabilized with concrete), wood mulch, concrete pavers, permeable concrete, and other innovative sustainable materials.

This palette was specifically selected for medians and right-of-ways to create water-efficient landscape solutions which provide visual interest for both pedestrian and motorists.

Although not illustrated in this Streetscape Master Plan, landscape lighting features will be constructed with the streetscape improvements. Lighting improvements would included up-lighting landscape or other streetscape features. In addition, floor-mounted electrical outlets will be installed with the streetscape improvements as well. The final locations and quantities of these outlets will be determined during the final engineering design phase.
